Sub: Committees-South Kanara Coconut and Arecanut Market Committee-Mangalore.

I am forwarding herewith in original the Annual Report of the South Kanara, Coconut and Arecanut Market Committee Mangalore for the year 1951.

1) This is the first report of the South Kanara Coconut and Arecanut Market Committee Mangalore carrying the period 10.7.50 to 31.12.51 nearly a year and a half. In the first instance, all the members of the Committee were nominated for a year from 10.7.50 to 9.7.51 and at the expiry of the term the Collector took over charge and continued to hold charge till 29.12.51, when the newly nominated Committee elected its Chairman.

2) Sri K.Tejappa Shetty, an Upper subordinate, in the Department of Agriculture was appointed as Secretary and he joined duty on 23.5.51.

3) As usual there was opposition for the introduction of the Madras Commercial Crops Markets in the South Kanara from the trade which enjoyed certain benefits in an unregulated mark to the disadvantage of the growers of the Commercial Crops. In course of time the trade will adjust itself and the opposition will disappear. Already there are signs of waning of the opposition

4) The progress of the work of the Committee has to be watched.

The collection of fee and registration of dealers etc, were taken up after the Secretary joined duty on 28.5.1951 and it is, therefore, the collection from June'51 to December,1951.

10. MARKETS:

Though registration and licensing of dealers was taken up from June 1951, no regular statements of arrivals and despatches could be collected during the year, because of the ~~fix~~ failure of some of the dealers to send their weekly and monthly returns. The arrivals of arecanut to the market during the year was found to be normal but the demand at the end of the season, in May 1951 was rather poor with the result that a fairly large quantity of "supari" brought to Mangalore remained unsold in some of the godowns of the Commission Agents and had to be sold as "Dastan" (Old supari) at a lower price at the commencement of the season in September - October 1951. The arrivals and sales during this season is found to be normal.

The following is the statement of imports and exports of supari and copra at Mangalore by sea only:- (From the Report of Kanara Chamber of Commerce 1950)

	IMPORTS			EXPORTS.			Remarks.

11. MARKET YARDS.

Market yards are yet to be opened by this Committee. Steps will be taken to open a yard at Mangalore as early as possible.

12. SEASON AND PRODUCTION:

Both the notified crops, coconut and arecanut are perennial crops which are mostly grown under irrigation in this district. The season in South Kanara was rather unfavourable to these crops for the last three years because of the long periods of drought with failure of rains in summer. This affected the trees especially coconuts though irrigated, and button shedding in coconuts was severe with the resultant poor yield. The incidence of "Mahali" disease of arecanut is being successfully prevented by spraying of Bordeaux mixture in almost all the areas. The crop of arecanut in 1950-51 season was generally below normal by about 10% and that of coconut by about 20 to 25%. The crop of arecanut in 1951-52 season is generally normal specially because of the less incidence of "Mahali" disease due to periods of bright weather during the South West Monsoon which enabled the gardens to be sprayed regularly with bordeaux mixture, thus preventing the spread of the disease. It should be remembered that special and greater attention is being paid to the cultivation and maintenance of both the arecanut and coconut gardens at present on account of the high prevailing prices of these crops. It is also noted that there is a tendency to increase the area under these crops wherever possible, the main limiting factors being the proper site and irrigation facilities for the same. But with all the attention and care now bestowed, it is found that the manuring of these crops are still far from adequate to get the yields one would expect from his gardens. Experiments on the use of easily available fertilisers in combination with the organic manures is a line of research that should be undertaken to increase the yield of the existing gardens.

The Rainfall statement is given in Appendix III — P 27

13. REVIEW OF PRICES:

Coconut: The price of coconut was high, especially during the months of September and October 1951, when the prices reached a record of Rs 300/- to Rs 370/- per 1000 nuts. There was a gradual fall from them and it was seen that the prices at the end of the year 1951 was only Rs 260/- to Rs 320/- per 1000 nuts with a tendency for a fall in the prices.

19

Copra: The price of copra in the district is mainly governed by the prices of copra in Alleppey and Cochin from where most of the copra is imported into this district. The high price of Rs 500 t Rs 525 per candy of 600 lbs in September - October gradually declined and there was found to be a sudden fall, the price at the end of December being only Rs 425 to Rs 460 per candy off 600 lbs.

Arecanut: The prices of arecanut during the year was ~~ex~~ fairly steady. The average monthly prices from September 1951 to December 1951 is given below:-

	September	October.	November.	December, 1951
	per cwt. of 112 lbs.			
Dastan.	Rs 120 to 145	Rs 115 to 135	Rs 100 to 125	Rs 85 to 105
Choll.	Rs 135 to 152	Rs 125 to 151	Rs 120 to 148	Rs 105 to 132
New supari	-		Rs 80 to 115	Rs 80 to 101
Koka.	-	Rs 50 to 100	Rs 45 to 95	Rs 40 to 80

14. MARKET REGULATION:

The weighment of arecanuts and copra in Mangalore Bunder is generally done on sensitive platform balances but in villages the weighment is done in beam scales. All the traders and growers were informed that only such scales and weights as conform to the English weights of the pound avoir dupois and multiples and sub-multiples thereof should be used for the weighment of these commodities. As the test weights could not be got, it was not possible to take up regular inspection and checking or stamping of scales and weights during the year.

The rate of Commission on sales of Arecanut was not uniform in the district and it was ranging from Rs 3-8-0 to Rs 4-8-0 per cwt. This was fixed at a uniform rate of Rs 3-8-0 per cwt. including all remuneration for service rendered such as godown charges and other incidental expenses. The rate of commission for sale of coconuts and copra were regularised and fixed at Rupees Two percent for buying and selling on the price of coconuts and three and half percent on the price of copra including all remuneration for the services rendered.

No disputes were brought before the Committee during the year.

Though there was some opposition to the enforcement of the Act, almost all the important dealers in arecanut and coconuts registered their names and took out the necessary licences as provided in the Act. To educate the dealers and the growers on the functions of the Market Committee and on the advantages of the Regulated Markets, the Secretary met a number of dealers and ryots, addressed a meeting of the Taluk Agriculturists' Association, Puttur and gave some "Press Notes" published in most of the local Kannada papers. Thanks to the courtsey of the Madras Broadcasting Station, the Secretary had also the opportunity ~~of~~ to broadcast three talks on "Arecanut Production" "Arecanut Sales" and "Arecanut Protection" in Kannada from Madras station on 27.7.51, 31.8.51 and 28.9.51. But still the opposition from a small section of traders continued. The fee on arecanuts exported was not paid by two exporters of Bunder, Mangalore. Repeated requests and reminders were of no use. When show cause ~~xxxx~~ notices were issued to the parties a reply was sent by them through an advocate questioning the validity of the Act itself. Further action against the defaulters has been taken up as provided in the Act, the Rules and the By-laws.

talks 1

The Mill Owners delayed payment of the fee due on copra for a time and submitted a memorandum to the Government through the Kanara Chamber of Commerce on 17.11.1951, for exemption from payment of fee. The Hon'ble Minister for Agriculture received the Memorandum at the Office of the Kanara Chamber of Commerce. As most of the points were clarified, the Millowners have since paid the fee due to the Committee.

15. AUDIT

Being the first year of its working, there was no audit of accounts during the year.

16. The following Government Orders of General nature were received during the year under report:-

i. G.O.Ms.No.1173 F & A dated 6.6.1951 regarding rules relating to the conditions of service governing the staff of Market Committee.

ii. Government memorandum no.51802 P/51/3 dated 6.9.1951 regarding the issue of stamped receipts for amounts exceeding Rs 20/- collected on behalf of the Committee.

17. GENERAL REMARKS.

Though there was some opposition to the Committee at the beginning, it is gratifying to note that this misunderstanding is gradually decreasing and it is hoped that it will turn to be one of good cooperation for the benefit of the growers and traders of these crops by taking advantage of the regulated markets and the open market yards. The Secretary of the Committee visited the Market Yards of the two important Committees at Cuddalore for groundnut and at Tirpur for Cotton and studied the working of these Market Yards.

DISTINGUISHED VISITORS.

1. The Hon'ble Sri. ..B.Shetty, Minister for Agriculture Government of Madras.
2. The Director of Agriculture, Madras.
3. The State Marketing Officer, Madras.

18. CONCLUSION:

The first year of the working of this Committee will ever be remembered. The functions of the Committee were in the hands of the Collector of South Kanara for over 5½ months from 10.7.51 to 29.12.51. It is my duty to express my gratitude to Sri. A. R. Rajaratnam, B.A., Collector of South Kanara for the keen interest that he had taken in the working of this Committee and for the time and labour that he had given during the period that he was performing all the functions of the Committee, even in the midst of his Heavy work. Sri. U. Narayana Mallya as Chairman of the previous Committee had not only worked sincerely for the progress of the Market Committee but was also of help and guidance in the study of the markets. I sincerely thank him for his work. Finally, I thank all the members of the previous Committee for their interest and kind cooperation in the working of this Committee.

In conclusion, I express my appreciation of the cooperation of the traders and the Kanara Chamber of Commerce, Mangalore in the working of this Committee and hope that this Committee will be able to progress day by day and fulfil the objects of the Act and be a real help to both the growers and traders of these commercial crops.

Office of the Committee,

please see the first annual report of the S. Kanara Coconut & Arecanut Market Committee for the year 1951, at pp 7-21 cf and the remarks of the D.A thereon at p.1 cf. the Collr of S. Kanara has not offered any remarks.

2. the members of this committee were first nominated in July '50 for a period of one year. Again, members were nominated for another year from 8.12.51. In the intervening period the Collr of South Kanara was in charge of the committee In the beginning there was considerable amount of opposition to the extension of the M.C.C.M. Act to S. Kanara. It took much time to convince the traders of the necessity for a regulated market the Secretary of the Committee, whose services were lent by the govt, took charge on 28.5.51. It was only then that some work was started. It is seen from the report that the dissatisfaction among the traders is slowly decreasing and they are taking out licenses as required by the Act. the Committee has not started anything started work regularly. As noted by the D.A, the progress of the work of the committee has to be watched.

3. the total revenues of the committee during the year amounted to Rs. 13537-15-0

the expenditure being Rs. 10155-12-3.

4. the report may be recorded subject to orders, a draft order is submitted
